DMI Group

For over 30 years AMI Exchangers are the market leaders for marine and industrial heat exchangers for all applications including:

Air Coolers, Condensers, Evaporators, Oil Coolers, Heaters, Pre-Heaters, Plate Heat Exchangers, HVAC, Radiators, Spares, Repairs and Re-Tubes.

North American industry leader in automotive die chrome plating since 1995 based in Howell, Michigan. Our unique processes allow for high efficiency on press runs, which means maximum efficiency for our clients. Customers include all US OEM's, several transplant OEM's and numerous tool & die shops.

DMI Drechsler GmbH is a leading company in the field of steel construction and machinery, welding and metal spraying as well as reconditioning of different engine components. We own two factories in a convenient location on the edge of the Hamburg harbour. Factory 1 for naval technology, steel construction and welding, and factory 2 for metal spraying.

HIGHLAND
ELECTROPLATERS

Highland Electroplaters provide a high quality, speedy surface coating service from their state of the art facility in Aberdeen, UK.

Processes offered include, Alocrom, Anodising, Copper, Electroless Nickel, Phosphating, PTFE/ Mos2 coatings including Xylan, Everslik, Molykote and Enlube, Silver and Zinc -Nickel Plating.

Landons are one of the UK's leading heavy steel fabricators specialising in fabrications in mild steel, as well as stainless steel and aluminium.

Our standards of quality and expertise are highly regarded. As a result, we continue to supply a range of industries, including power generation, renewable energy and construction.

Spiro-Gills Thermal Products has a wealth of experience in designing and manufacturing air-cooled heat exchangers for a multitude of cooling applications. Our extensive experience includes, but is not limited to, Process Coolers, Power Generation Cooling, Transformers, Condensers and many more cooling systems. Our coolers are designed to meet the most onerous worldwide environments on sites from the Arctic to the Equator.

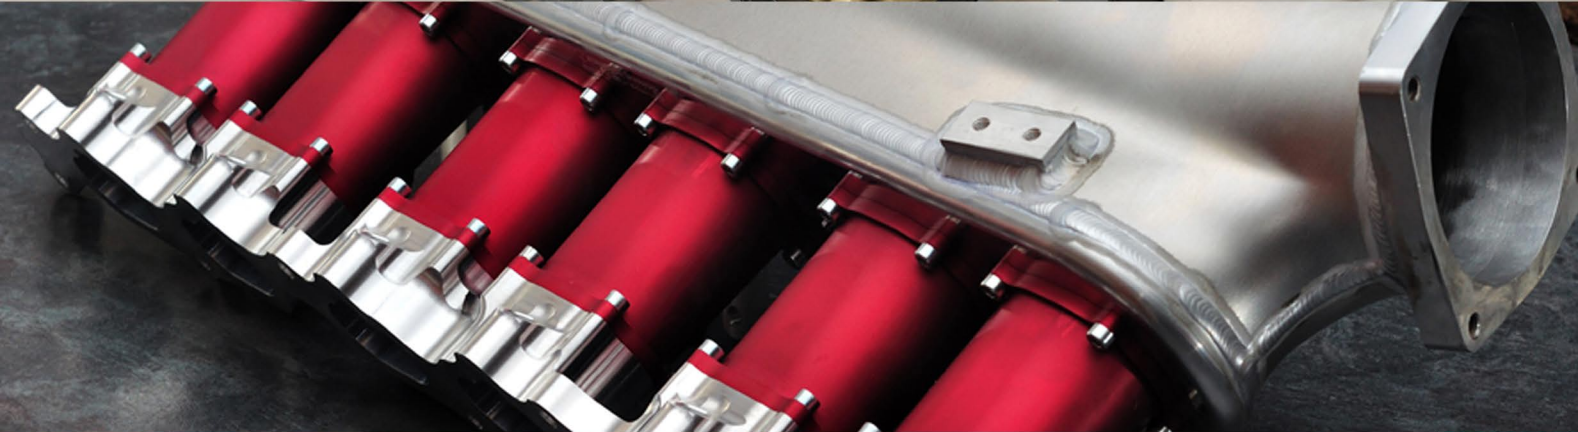

Located near the Southern bank of the River Humber in the UK, WM Codd provide expert structures and installations for offshore and industrial applications. We are proud to count prestigious clients such as Phillips 66 refinery and British Steel among others. They enjoy the knowledge, support and experience that WM Codd bring to their projects and as a result see reduced downtime and more efficiently managed scheduled maintenance shutdowns.

Y&C Valves stock and distribute valves and fluid control systems. We take a Personal interest in providing the right solution whatever your application.

Our products are found across all key sectors: Oil & Gas, Marine, Chemical Process, to name a few. Our range of materials, construction, and sizes makes us a one stop shop for anyone's flow control requirements.
